

PRUDHVI DILIP KUMAR

Full-Stack Developer & Software Builder

Email: dilipkumarprudhvi@gmail.com | GitHub: github.com/dilipkumarprudhvi-a11y | Location: Hyderabad, India

EDUCATION

â€¢ B.Tech in Artificial Intelligence & Data Science (2024 - Present)

â€¢ Diploma in Engineering - State Board of Technical Education (2021 - 2024)

TECHNICAL TOOLKIT

â€¢ Programming: Python 3, JavaScript (ES6+), Java, C

â€¢ Frontend: React.js, Semantic HTML5, CSS3 Grid/Flexbox, Responsive Design, ARIA

â€¢ Backend: Node.js, Express.js, RESTful APIs, Middleware, JWT Authentication

â€¢ Databases: MySQL Relational DB, Relational Schemas, Complex SQL Queries, JDBC

â€¢ Machine Learning: NLP, OCR Text Extraction, TF-IDF Vectorizer, Scikit-learn

â€¢ Developer Tools: Git, GitHub, Linux CLI, VS Code, Google Colab

SELECTED PROJECTS

1. Fake News Detection System (Python, Machine Learning, NLP, OCR, TF-IDF)
 - Multilingual NLP pipeline with OCR document ingestion achieving 98.4% accuracy.
2. Modern Interactive Calculator (JavaScript ES6+, HTML5, CSS3 Grid)
 - Precision arithmetic engine with error boundaries and full keyboard support.
3. Senior Developer Portfolio (Semantic HTML5, Modular CSS3, Vanilla JS)
 - High-contrast, zero-bloat portfolio architecture scoring 100% on performance.
4. Student Management System (Java OOP, MySQL Relational DB, JDBC)
 - Academic record portal with normalized relational schemas and transactional CRUD.
